How to search the Wanted Credits List	18-21
How to submit a Credit Offer application	22-31
How to log out	32
Contact us	33

Register early to access the BCT's Offsets Portal

Important things to know before participating in Credit Tender 25-01

1. BCT has introduced multi-factor authentication for Credit Tender 25-01

Multi-factor authentication is a security measure that enhances login protection by requiring 2 forms of identification – a password and a one-time verification code sent to your email address. This step helps safeguard against common cyber security threats and ensures that only verified, authorised users access sensitive data, reducing risks associated with shared credentials.

2. Register an account with the BCT's Offsets Portal before submitting your online Credit Offer application

Credit tender participants are required to register an account and log in via a password and one-time verification code sent to your email. Registration is required to submit a Credit Offer application in Credit Tender 25-01. Users are required to enter a one-time verification code when you register, and each time you log in, to ensure your account remains secure.

3. How does the registration and log in process work?

To register an account, follow the steps on slides 6-17. Here's a summary of what's involved:

1. Go to <https://offsetsportal.bct.nsw.gov.au/> and select '**Register/login**' and then '**Sign up now**'.
 2. Enter your email address, name, password, and a one-time verification code sent to your email.
 3. Once BCT verifies the registration request, you'll be notified via email that your registration is approved.
 4. Log in with your email, password and one-time verification code to access the BCT's Offsets Portal.
-

Search the Wanted Credits List for the credits you own

Important things to know before submitting your online Credit Offer application

Search the Wanted Credits List using all four credit class attributes of the credits you own (or expect to create at a proposed site).

To ensure your bid is eligible, it is important to understand this key message before following the steps on slides 18-21. For species credits, simply enter the species name of the credits you own and want to sell and select the search button. For ecosystem credits, enter the **four** credit class attributes that identify the credits you own and want to sell:

- IBRA subregion
- PCT ID
- Offset Trading Group
- Hollow-bearing tree status.

Why is this important? In past tenders, a large proportion of bids were ineligible because one of the credit class attributes offered for sale did not match the credit class owned. **You will not benefit from submitting bids for credit class options that don't match all four credit class attributes of your credits.** In most cases these bids will be ineligible. If the BCT wants your credits, the specific credit class of your credits will be displayed in the Wanted Credits List. If the specific credit class you own is not displayed, then unfortunately the BCT is not seeking your credits at this time.

Common examples of ineligible bids and an exception for Threatened Ecological Community credits are outlined in the Participants' Guide available on the BCT Credit tenders webpage at www.bct.nsw.gov.au/credit-tenders.

Requirements for proposed credits

Important things to know before submitting your online Credit Offer application

Landholders proposing to establish a Biodiversity Stewardship Agreement (BSA) may participate in Credit Tender 25-01 if the minimum requirements for proposed credits are met.

Landholders must submit one of these supporting documents:

- Either a Business case,
- Or if available, a draft Biodiversity Stewardship Site Assessment Report (BSSAR)
- Or if available, a finalised BSSAR submitted to the Department of Climate Change Energy, Environment and Water (DCCEEW) with a BSA application.

The supporting document must be prepared by an accredited assessor and must include the following information to be eligible:

- Name of assessor and accreditation number.
 - Map of PCTs on the proposed BSA site that has been ground-truthed through an on-site assessment.
 - Preliminary map of vegetation zones (a map of management zones is not required).
 - Estimate of the number of ecosystem credits expected to be created in each vegetation zone (or management zone where relevant) based on BAM plot data collected from the site. Credit information must include the IBRA subregion, PCT ID, Offset Trading Group and Hollow- Bearing Tree status.
 - For applications for species credits, details of the survey method undertaken, level of effort, **evidence** of confirmed presence of the species on the site and an estimate of the number of credits expected to be created.
 - Total Fund Deposit estimate for the site.
-

Access the BCT's Offsets Portal using <https://offsetsportal.bct.nsw.gov.au/>

Biodiversity offset program

The Biodiversity Offsets Scheme (BOS) is a framework to avoid, minimise and offset impacts on biodiversity from development and clearing, and to ensure land that is used to offset impacts is secured in-perpetuity. The scheme consists of two elements:

- Developers and landholders who undertake development or clearing, generating a credit obligation which must be retired to offset their activity
- Landholders who establish a biodiversity stewardship site on their land, through Biodiversity Stewardship Agreements (BSA), generating credits to sell to developers or landholders who require those credits, to securely offset activities at other sites.

The purpose of the Biodiversity Conservation Trust (BCT) is to seek strategic biodiversity offset outcomes under the BOS to compensate for the loss of biodiversity due to development and other activities. The BCT has a strategic goal to deliver a strategic biodiversity offsetting service to the developers and landholders of NSW.

The BCT works to achieve this goal by delivering the Biodiversity Offsets Program (BOP). Under the BOP, the BCT secures biodiversity offsets on behalf of developers who opt to pay into the Biodiversity Conservation Fund to meet NSW state and Commonwealth offset obligations of their development approval.

Register / Login

Please log in to the Offsets Portal to:

- Request a Biodiversity Conservation Fund quote,
- Make a payment into the Biodiversity Conservation Fund, or
- Submit a credit offer in a BCT Credit Tender.

Please create an account for the Offsets Portal via the 'Register' link below.

Credit Offer Portal - Wanted Credits

UPDATED 17/09/2024

Instructions

Ecosystem Credits

Species Credits

Species Credits (variations)

Welcome to the Credit Offer Portal

The Credit Offer Portal enables participants to:

- Browse through the BCT's Wanted Credits List
- Select credit types to be offered for sale to the BCT, and
- Submit an offer to sell their credits to the BCT

The BCT's [Credit Offer Portal](#) webpage provides information on how to use the Wanted Credits List.

We recommend you view the [Guide to the Credit Offer Portal](#) before using the Wanted Credits List and submitting an offer to sell credits to the BCT.

How to search for BCT's wanted Ecosystem credits

Credit Offer Portal - Wanted Credits

UPDATED 17/09/2024

Instructions

Ecosystem Credits

Species Credits

Species Credits (variations)

Use this table to search for ecosystem credits wanted by the BCT. Refer to the BCT [Credit Offer Portal](#) webpage for more information.

Note: All four question fields below must be completed with information that matches the credits you own. Not doing so may result in your offer application being rejected.

What IBRA subregion are your credits from? *

Select IBRA subregion

What PCT ID are your credits?

What Offset Trading Group are your credits?

Select Offset Trading Group

Does the vegetation have hollow-bearing trees?

Select an option

Search Select any IBRA Subregion from the list.

Search for all four credit class attributes that match the credits you own and want to sell:

1. IBRA subregion
2. PCT ID
3. Offset Trading Group
4. Hollow-bearing tree status

Select	IBRA Region	IBRA Subregion	PCT ID	Name	Offset Trading Group	HBT?	No. of BAM Credits
--------	-------------	----------------	--------	------	----------------------	------	--------------------

No results found

Complete the declaration and submit your Credit Offer application

Declaration ↑

I declare that, to the best of my knowledge:

- the credits identified in this application are available for purchase by the BCT. If I am a landholder proposing a BSA then, to the best of my knowledge, these credits will be available for purchase when the BSA is established.
- I have read the Participants Guide for the BCT credit purchase program.
- all eligibility requirements to apply for the credit purchase program, as identified in the participants guide, are addressed.
- I have prepared my application based on my own research and independent advice, and I have not relied upon any representations made by BCT staff.
- where the credit owner or landholder is an organization or comprises of more than one entity, I have authority to complete this form on behalf of the organization or, if more than one entity, on behalf of all entities and
- the information provided on this form is complete and correct.

I agree and acknowledge that:

- I give permission for the BCT to collect, store and use personal information contained in this application in accordance with the [privacy notice and application details](#) and for the purpose of assessing the application and purchasing the credits.
- I give permission for the BCT to access, store and use any information that is held by the Department of Planning, Industry and Environment (DPIE) and the BCT, in accordance with the [privacy notice and application details](#) and for the purpose of assessing the application and purchasing the credits. This includes information to verify the ownership and attributes of the credits that are the subject of this application, as well as attributes of the agreement that created the credits, including information on the Total Fund Deposit for the agreement.
- I acknowledge that the BCT has the right to revoke its acceptance of my application if it is discovered that any statement made by me in this form is incorrect, incomplete or misleading, in a way that may have affected the decision to commit to purchase my biodiversity credits.
- I acknowledge that I have the right to decline an offer by the BCT to purchase my biodiversity credits, based on this application.

I confirm that I have read and consent to the above declarations (box to be checked to indicate consent). *

I confirm that I have read and acknowledge the privacy notice and application details (box to be checked to indicate confirmation). *

If the applicant is an organisation or comprises of more than one entity, then a person who has authority should complete this declaration and submit the application on behalf of the organisation or other entities.
